What is Corporate Travel Insurance?

Corporate Travel Insurance comprehensively covers your directors and employees travelling for business interstate, intrastate or overseas.

The fundamental purpose of Corporate Travel Insurance is to give you access to medical emergency assistance while you are travelling overseas. Services include clinics, doctors and nurses, and evacuation. The policy offers emergency assistance for other risks to your safety, such as natural disasters, political unrest and extortion. Security and safety experts are on call.

The policy also covers the cost of other mishaps: lost or damaged luggage; loss of personal effects including money and credit cards; cancelled flights and accommodation; rental car excess; and more.

An effective response to a travel emergency or serious misadventure reduces disruption to your business:

- with your employees adequately cared for during and after the trip
- the costs of the emergency or misadventure carefully managed

Your Industry Specialists
